

CAT6 PATCH LEADS

Trouble free CAT6 patching!

Legend has a comprehensive range of CAT6 patch leads in 10 different popular colours and most desirable lengths up to 20m.

They are well designed with fully moulded strain relief boots. Snag-less style cable design with 'ear' on boot helps reduce the possibility of accidental un-plugging.

Applications of these patch leads range from the occasional Ethernet connections in home network to the full data-room patching. The many lengths and colour options make tidy organization and network/group identification easy.

Legend holds good stock quantity of all the patch leads in their colour and length variations – a truly one-stop-shop for all your patch leads requirements.

CAT6 BLUE PATCHLEAD
