

Insulation Tape

CABAC's insulation tape is a high quality product, that maintains its elasticity and adhesion in the long term. The tape is made of PVC and as such is resistant to acid, alkali, solvents, cold, and is flame retardant. This tape can be used for basic insulation, as well as harnessing and general wirewrapping. The tape is supplied in rolls of 10 in an outer, in a rainbow pack, or in discrete single colour 10 roll packs. A rainbow pack contains three black, two red, two blue, two white and one green/yellow roll.

ITRP Rainbow pack

ITBK/10 Black pack of 10 rolls

ITRD/10 Red pack of 10 rolls

ITWH/10 White pack of 10 rolls

ITBL/10 Blue pack of 10 rolls

ITGY/10 Green/Yellow pack of 10 rolls

Technical Data

Nominal reel dimensions 20m long, 18mm wide

Tape backing PVC

Adhesive Rubber based

Thickness 0.18mm

Adhesion 1.8N/cm²

Tensile strength 28N/cm²

Elongation 160%

Breakdown voltage 8kV
