# How Microsoft® Office Home and Student 2007 stacks up

## Create high-quality documents.

Microsoft Office Home and Student 2007 enables your customer to produce high-quality documents that they can be proud of with new SmartArt™ diagrams, new shading and colour tools in Microsoft Office Excel® 2007 and the ability to see formatting changes before making them using the new Live Preview.

## Organize notes and information.

New to Office Home and Student 2007 is Microsoft Office OneNote® 2007. OneNote is a digital notebook that enables your customer to gather, organise and search virtually any type of information in one place, quickly and easily, so they can manage tasks and get things done more efficiently.

## Find commands and help easily.

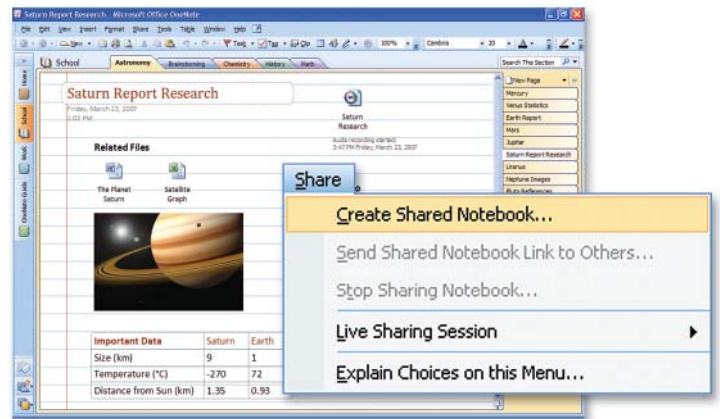

Microsoft Office Home and Student 2007 has a new streamlined user interface and an enhanced Help system, including online tutorials with step-by-step instructions, enabling users to be more resourceful, quickly learn the product and find answers to their questions.

## Maintain consistency.

Microsoft Office Home and Student 2007 helps your customer maintain a consistent look across all of their documents, spreadsheets and presentations, automatically, with Themes.

## More options for sharing documents.

Microsoft Office Home and Student 2007 makes it simple for your customer to share documents with others. Easily convert important documents, spreadsheets and presentations into a variety of industry-standard formats, such as PDF and XPS\*\*.

System requirements	
Component	Requirement
Operating System	Microsoft Windows® XP Service Pack (SP) 2 or later or Microsoft Windows Server 2003 (or higher) required.
Computer and Processor	500 megahertz (MHz) processor or higher; 256 megabyte (MB) RAM or higher; CD-ROM or DVD drive.
Hard Disk	1.5 Gigabyte (GB) necessary for install; a portion of this disk space will be freed after installation if the original download package is removed from the hard drive.

**If customer's PCs don't meet these requirements, then consider selling them hardware, software and services to update their current systems.**

Actual requirements and product functionality may vary based on individual system configuration and operating system. For complete requirements visit <http://www.microsoft.com/office/products>.
