Great power, fast access

A power-saving Intel® Atom processor with DDR2 technology keeps your favourite activities running smoothly. With WLAN and Bluetooth, you can always launch HP QuickWeb to begin your day in an instant!

Easy viewing and listening

The 10.1-inch diagonal WSVGA anti-glare LED widescreen and VGA webcam with digital microphone means you'll see and chat effortlessly. Entertainment follows you around with HP Media Suite playing your favourites and 3 USB ports for connecting accessories.

Always room for more

Keep up to 250GB of files stored in your hard disk or place them in your HP CloudDrive account*. Extra storage and transfers between friends are made easy with the built-in SD/MMC memory card^ slot.

First 2GB comes free. Subscription is required for a larger storage capacity. See <http://www.hpclouddrive.com> for details.

^ SD/MMC memory cards sold separately.

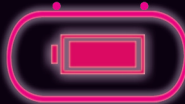

In control, in comfort

The Touch Pad enables smooth navigation while the 93% full-sized keyboard makes typing a breeze, allowing your fingers to find their way easily.

Lasts the whole day

With a long-life battery option, you can stay connected for up to 8 hours* as you create and share your digital content on the go. Start the day and end the day in sync, by using HP QuickSync to update your files between PCs.

* Only applies when using the optional 6-Cell battery.

Why HP notebooks

We're the 1 to count on

It's the sensible thing to do. By making technology easy, fun and effective, we bring on the smiles at play and loads of satisfaction at work. That's why HP is ranked the No. 1+ PC maker worldwide.

+ HP is No. 1 in the Worldwide Total Client PCs and Total Notebook market in terms of shipments since Q4 2006. Source: IDC Worldwide Quarterly PC tracker, Q4 2009.

It gets even better

Get that entertainment boost. Enjoy more battery life. Increase your comfort with gadgets that won't weigh you down. Whenever you're ready for more, opt for Original HP Accessories and we've got it covered!

Keen on being green

We want a healthy Earth. By recycling and reducing the amount of materials used in building our PCs, we've saved enough metal in 18 months to build another Eiffel Tower. We like doing our part.
