## Why HP notebooks

- We're the 1 to count on**  
It's the sensible thing to do. By making technology easy, fun and effective, we bring on the smiles at play and loads of satisfaction at work. That's why HP is ranked the No. 1 PC maker worldwide.
- It gets even better**  
Get that entertainment boost. Enjoy more battery life. Increase your comfort with gadgets that won't weigh you down. Whenever you're ready for more, opt for Original HP Accessories and we've got it covered!
- Keen on being green**  
We want a healthier Earth. By recycling and reducing the amount of materials used in building our PCs, we've saved enough metal in 18 months to build another Eiffel Tower. We like doing our part.
