

Product description

SteelSeries 7G sets new industry standards for gaming keyboards by allowing users to perform the most detailed and advanced key combinations to date. By utilizing the most powerful PS/2 buffer-system ever created for a gaming keyboard, SteelSeries 7G redefines “anti-ghosting” by supporting as many simultaneous key presses as there are keys on the keyboard. The keyboard features both PS/2 and USB connectors. The use of PS/2 combined with a gold-plated USB connector and 18K gold-plated mechanical switches, means that SteelSeries 7G improves your ability to obtain more Actions Per Minute than any other keyboard in the world. It features gaming grade response times and more than six times the durability of a traditional keyboard.

Special features

- * Supports all keys pressed down at once
- * Features SteelSeries Media Controls
- * Removable handrest
- * Durable metal inner chassis

Availability date

November 2007

Part number

64022

Package contents

Keyboard, handrest, USB connector

Technical specifications

- Gold plated switches
- 2 port built-in USB hub
- Built-in headphone & microphone mini jacks
- Cable (braided): 2 m / 6,6 ft.
- 1 x USB plug, 1 PS/2 plug, 2 x mini jack
- Lifecycle of 50 million keystrokes
- Dimensions: 250 x 480 x 43 mm / 9,8 x 18,9 x 1,7 in

System requirements

PC with PS/2 or USB port.

Packing
