MASTERBOX TD500 CRYSTAL

MCB-D500D-KGNN-SAU

With ARGB Controller

EXQUISITELY RUTHLESS

FEATURES

Diamond Cut Front Panel Design – Stand out from the rest with a Three Dimensional diamond cut design extending the entire front bezel.

Crystalline Tempered Glass – A crystalline design spans the edges of the tempered glass side panel, precision engineered for strength as well as aesthetics.

Triple ARGB Fans – Three addressable RGB fans flood the Polygonal Mesh front panel with lighting while providing considerable airflow to the system.

Certified compatible with: ASUS, Gigabyte, MSI and ASRock motherboards.

Dual 360mm Radiator Support – For enthusiast-grade cooling, two 360mm radiators are supported on the top and front panel to keep the most extreme systems cool.

Versatile Cooling Options – Support for up to seven 120mm fans and 360mm front and top radiator support ensure that performance is not compromised.

Room For Upgrades – Support for up to a 410mm graphics card, a 165mm CPU cooler, and up to a 180mm PSU in length provides room for upgrades to stay ahead of the game.

MasterBox TD500 Crystal

The MasterBox TD500 Crystal makes you stand out from the rest with a three-dimensional diamond-cut design extending from the front bezel to a tempered glass side panel reminiscent of cuts from crystal ore.

Airflow performance is delivered by three pre-installed ARGB fans mounted in front to light up every intricate angle of the fascia. Clarity, colour, and cut mean everything. Indicative to a diamond's strength and sparkle, the Crystalline Tempered Glass side panel incorporates its characteristics through precision engineering and CNC machining for both its toughness and its exquisite visual properties.

Because of its unique qualities, light refracts and behaves differently depending on the viewing angle. With advanced technology set firmly into industrial art, the MasterBox TD500 Crystal carves its own path leading to the bleeding edge.
